### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Pursuant to MPEP § 606.01, the title has been changed to --Disc drive with shockproof mechanism having tray with block preventing escape of cam shaft from track--.

2. The following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggests a block, at an end of a track in a disc drive tray, for preventing a shaft escaping from said track. Although closed tracks are known in the art, the prior art of record neither shows nor suggests replacing a track end wall with a block.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kitamura (US PAP No. 2002/0036969 A1) shows a tray 1 wherein track 5 has an end wall (see Fig. 2). Shimizu et al (US Pat. No. 6854124 B2) show a disk drive unit with a tray having a track (see Fig. 8 for end of track). Mazza (US Pat. No. 3802710) shows a record player having automatic record-positioning system (see Fig. 3).
